

## Release Notes

**Update:** Mar. 7, 2017

### Name

ADM 2.7.0.RF72

### Installation Notes

- No matter if you decide to upgrade ADM or not, it is still recommended that you should back up all data on your NAS.
- Since the file structure in the ADM 2.7 has been modified, you will not be able to roll back to a previous version of ADM after upgrading.
- When performing a system migration from a newer version of ADM to an older version of ADM, please be sure to upgrade the destination NAS with latest version of ADM after system migration completes.

### What's New?

- PPPoE Broadband Connection Service
- Easy-of-Access version update
- Firmware schedule update
- App schedule update
- Update kernel to linux-4.4.24 (for AS31/AS32/AS61/AS62/AS5/AS7)
- Heterogeneous Data Sharing via CIFS Shared Folders

### Change Log
